

HASA TILE BRITE

SWIMMING POOL TILE CLEANER

HASA TILE BRITE may be used on all tile and porcelain surfaces in the swimming pool and in the spa to remove the build up of oils, soaps, and mineral deposits.

DIRECTIONS FOR USE:

Apply **HASA TILE BRITE** swimming pool tile cleaner directly to the pool tile with a stiff bristle brush or plastic applicator pad. Rinse with water after application. For stubborn stains, apply **HASA TILE BRITE** as above, allow to remain on surface for fifteen minutes, and repeat brushing action.

Squirt **HASA TILE BRITE** on the surface of swimming pool water to help collect floating debris or to calm the water surface, this can aid in seeing the bottom of the swimming pool for easier cleaning.

HASA TILE BRITE will gently clean and shine tile surfaces in the kitchen and bath, also.

AVAILABLE PACKAGING:

HASA TILE BRITE is available in convenient quart bottles with a dispenser cap or an economical one gallon size.
